

## STAPPERT LENDS PRODUCTS THAT PERFECT SHINE

### SURFACE FINISHING ACCORDING TO YOUR WISHES

In our surface treatment centre, we give products a perfect shine.

Whether for use in the area of construction and design, or for prestige buildings requiring sophisticated surface quality, or for maritime applications with mirror-polished surfaces – from matt to shining, we carry out any treatment according to the specifications of our customers.

#### GRINDING

Grain 80 to grain 1.200

#### BRUSHING

Gloss or matt

#### POLISHING

- Industrial polishing
- High gloss polishing
- Mirror polishing

#### BLASTING

Glass or stainless steel bead-blasted

#### Subsequent finishing is possible for the following products:

- Flat bars
- Square bars
- Round bars
- Hexagonal bars
- Angles
- U-channels, T-sections and I-beams
- Round tubes
- Hollow bars
- Square tubes
- Rectangular tubes

#### Moreover, we also offer products with ready-finished surfaces from our warehouse stock:

- Ground round tubes
- Ground square tubes
- Ground rectangular tubes
- Round tubes with polished maritime surface

We can supply you with surface-finished products in ready-to-install fixed lengths on request.

If you have any questions about our finishing options and techniques, our sales advisors will be glad to help you!
