EPD-IES-0016844:001

Unannealed and annealed butt-weld pipes fittings

Unannealed and annealed stainless steel butt-weld pipe fittings (elbows and tees). These standard components act as semi-finished / intermediate goods integrated into larger industrial piping systems. They are used widely across process industries: chemical, petrochemical, aerospace, automotive, and food & dairy sectors. Primary materials are austenitic stainless steels such as 304L (1.4307), 316L (1.4404), and AISI 316Ti (1.4571).
